

SPORTS VOLUNTEERS NEEDED at a club near you

Working in conjunction with Surrey V-involved, Active Surrey, Schools & other partners, we require individuals from all backgrounds, whether sporting or other, to fill many roles including:

- Coaching assistants
- Leader's
- Journalists/Photographer's
- Volunteer-Coordinator's
- Team Manager's
- Adult run group leader's

The network and individual clubs support all their volunteers & we can cover costs of initial qualification & continued professional training. Whether you are able to give 1 hour a month or 6 hours a week, we would be delighted to hear from you.

All clubs in the network are run by dedicated volunteers, however a phenomenal amount of youngsters wishing to take part in athletics across South Surrey are not offered the chance as there are simply not enough volunteers.

Most of our opportunities involve work with young athletes & therefore require volunteers to undertake an enhanced CRB (free of charge). However we also have a need for volunteers to work just with adults. We are not just looking for coaches, contact us if you have a skill you could offer.

We can provide you with all the training required & you will never be asked to do anything you are uncomfortable with. The fundamental movements of athletics (run, jump, throw) underpin movement patterns of all mainstream sports, therefore we welcome those with a background in other sports, and those with no sporting background looking for a new challenge.

Do not be put off if you have never competed or coached personally, a willingness to learn is all that you need. You will have the opportunity to work alongside experienced coaches, and with time can move onto leading groups unsupported with a senior coach mentoring you. You will have the opportunity to gain nationally recognised qualifications.

Training for non-coaching roles will also be available.
